Zadanie 8B

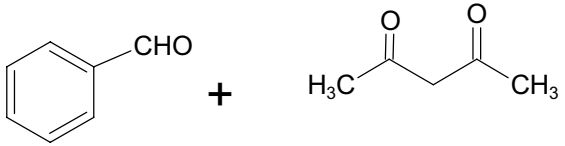

Reakcje związków organicznych

A. Poniższe wzory przedstawiają cztery zestawy związków będących produktami ozonolizy w warunkach redukujących.

1)  + HCHO

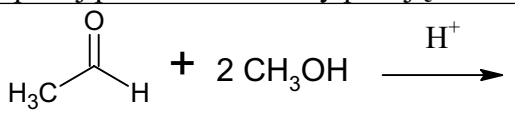

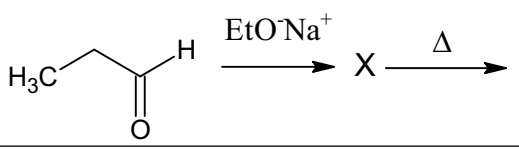

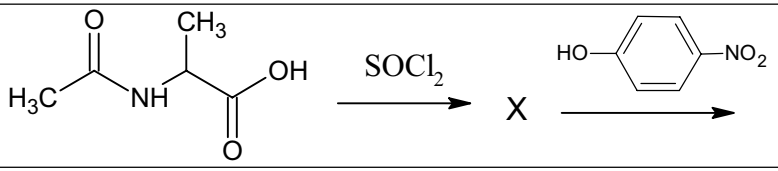

2) $HCHO + CH_3CH_2CHO$

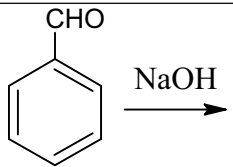

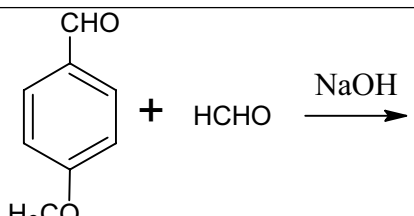

3) $2\ CH_3CHO$

4) 

Polecenie: Przedstaw za pomocą wzorów strukturalnych (szkieletowych) substraty tych czterech reakcji ozonolizy.

B. Uzupełnij poniższe schematy podając wzory produktów przedstawionych reakcji:

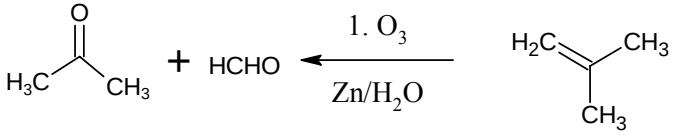

1.	
2.	
3.	

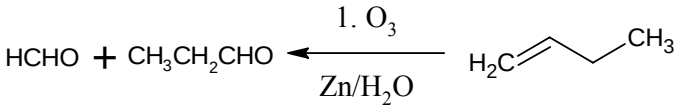

4.	
5.	

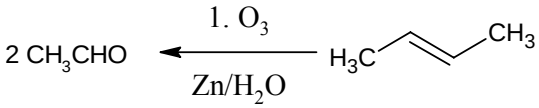

Zadanie 8B

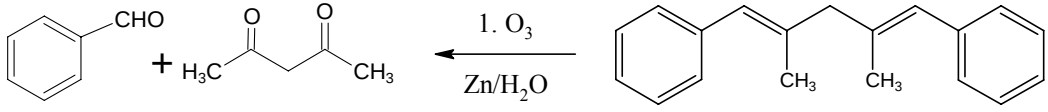

Reakcje związków organicznych

A. Reakcje ozonolizy przebiegały zgodnie ze schematami:

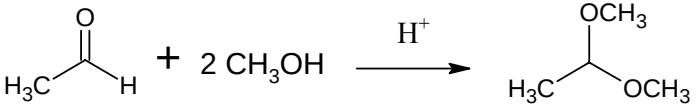

1. 

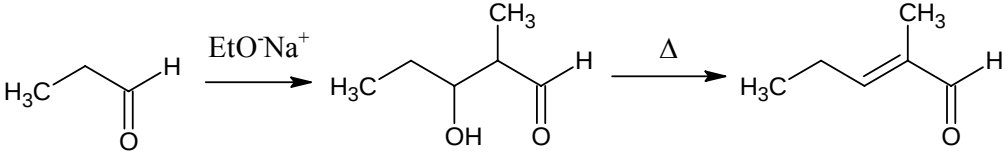

2. 

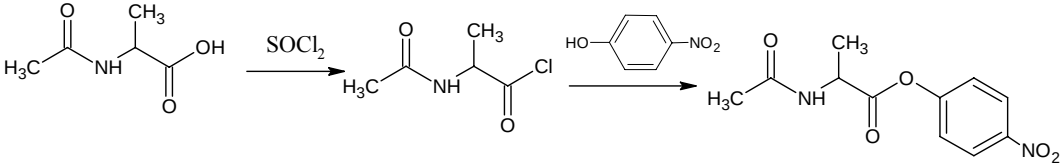

3. 

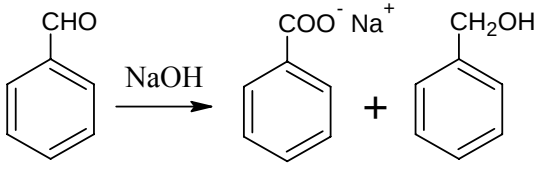

4. 

B. Pozostałe reakcje mają następujący przebieg:

1. 

2. 

3. 

4. 

5.
